**Subject:** Evaluation of alternate sites for wastewater facility presently proposed for New Hill

At the last Apex Board of Commissioners meeting, I proposed the enclosed resolution which was denied based on the concerns that it would ruffle Cary feathers. I don't at all view the resolution in that manner. All the resolution does is recommends that we continue to evaluate alternate sites that would better satisfy New Hill folks while still meeting our objectives for a wastewater facility. I would hope that Cary would take the lead in further considering alternate sites.

I have reviewed alternate sites, and my opinion as a professional engineer is that there is at least one site that well meets the needs of the partnership while reducing the impact to New Hill at a minimal additional cost, if any. We need to continue to consider these possibilities because there is a chance that the state will deny our proposed Site C.

I am also attaching an article stating my concerns with the process as it now stands.

Sincerely,

Bill Jensen

Apex Board of Commissioners
