Quoting from The Apex Herald article *Candidates state their case*:

"In discussing the proposed sewage plant in New Hill, all four candidates agreed that it was not the best site for the facility.

Sutton said he would have supported a resolution proposed by Commissioner Bill Jensen that supported further site studies. That resolution failed when the other commissioners chose not to support it."

Commissioners Jones and Schulze had the opportunity to show they believe New Hill was not the best site for the facility, but failed to provide a "second" to Commissioner Jensen's resolution. As a result of the action by Commissioners Jones and Schulze, the resolution died for lack of support.

Commissioners Jones and Schulze publicly say New Hill is not the best site for the facility, but when it comes to their actions, they refused to vote for, or "second", a resolution that would have asked Cary to evaluate additional sites.

In my opinion, as well as the opinion of many of my neighbors, Apex citizens will be better served by changing the regime on the Apex Board.

Candidate Bill Sutton will provide a voice of reason, along with Commissioner Bill Jensen. Mike Jones and Gene Schulze have demonstrated their actions are inconsistent with what they say.
