Subject: Proclamation regarding the proposed location of the Western Wake Wastewater Treatment Facility

Our church has been a landowner and resident of the New Hill community for well over 100 years. We as a body of First Baptist Church New Hill go on record opposing the location of the Wastewater Treatment Facility that is being forced on us. We believe that the community should have had as much right to be involved in the selection process as the towns of Cary, Apex, Morrisville, and Holly Springs.

We believe that the proposed location is too near the churches, homes, and businesses of the community. While many of our members may not live in the New Hill community, several of the community members who live closest to the proposed site of the Wastewater Treatment Facility (Site 14) are members of our church. We do not agree with accepting the proposed wastewater treatment site under any circumstances. We feel that there are other options available rather than destroying our community.

Signed by,

Reverend James E. Clanton, Jr.
Pastor
