RE: Opposition to placement of proposed waste-water treatment facility in New Hill, North Carolina

Dear Sirs;

Broadcast reports by WRAL-TV (June 25 – 6 pm news report) in which Mr. Robert Bonne, Cary's Utility Director was interviewed would like us to believe that the disastrous and on-going sewage overflow events in my neighborhood of this past week are "a one in a hundred year event". Even if that is the case, it is unacceptable.

If the Town of Cary cannot adequately safeguard its own citizens, what can the citizens of New Hill expect to encounter if the proposed regional waste water facility is placed in the midst of their community.

I stand with my New Hill neighbors in expressing strong opposition to the proposed placement of that facility at the proposed New Hill site. I call upon you to reverse the proposed placement decision.

Sincerely yours,

H. Paul Shackleton
