## Article Text:

As noted in a June 5 news story, the citizens of New Hill recently learned about plans to locate the Western Wake wastewater treatment facility in our community. **We** have questions and concerns about this project, beginning with the clandestine selection **process**, and our opposition to sites near churches and neighborhoods.

Although the Cary Town Council will not vote to begin the **process** of condemning the land until June 23, the item remains on the council agenda for June 9 as an information item, and **we** were assured that our concerns would be heard on June 14 at a planned informational meeting.

**We** have now learned that the proposed format for the June 14 meeting is a series of 30-minute infomercials, with some staff available to hear questions from individuals. This proposed format has the appearance of being a blatant attempt to silence our community and our concerns.

New Hill, which would be most affected by this facility's placement, deserves to be a partner in this **process**. The citizens of New Hill want representation. **We** request the opportunity to speak with all the other partners: Wake County, Cary, Apex, Morrisville and Holly Springs. Only in genuine and orderly meetings can **we** work together for the best placement of this wastewater treatment facility.

Tonya Forbes
